

Volvo XC40

V O L V O

The New XC40 Recharge T5. Enjoy More, Using Less.

The new XC40 Recharge T5 features an electric motor and petrol engine that works in harmony to give you the perfect balance between on-demand power for performance with low fuel consumption while cutting CO₂ emissions. We achieve this with Drive-E, the cutting-edge technology behind every one of our advanced petrol and plug-in hybrid powertrains.

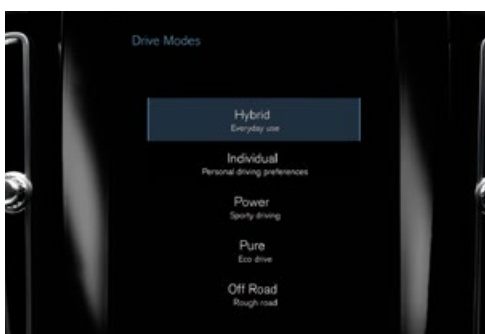

The XC40 Recharge is a compact Scandinavian plug-in hybrid SUV – designed for the city, and the rest of the world.

The Volvo XC40 has a high ground clearance, large wheels, and true SUV proportions to give it a powerful stance. And from the bold front grille to the beautifully detailed taillights, it's uniquely Swedish and unmistakably a modern design.

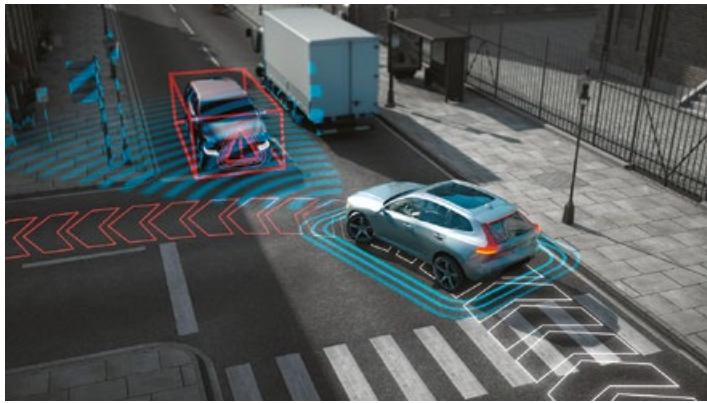

The XC40 is our most powerful expression, characterised by dynamic contrasts and a confident presence. Unique exterior design details in glossy black, such as the front grille, the roof and the door mirror caps, together with large alloy wheels make it possible to create a truly distinctive look.

Enjoy agile, energetic responses from behind the wheel whether you're in the city or out on the open road. All thanks to the selectable drive modes allow you to set your car's responses to suit your driving preference.

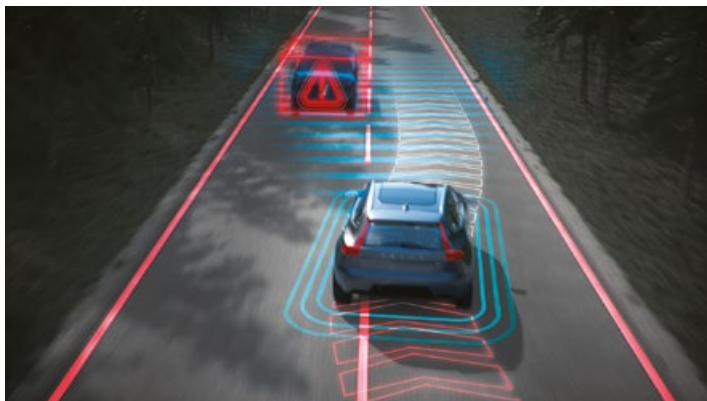

INTELLISAFE – SAFETY ASSISTANCE

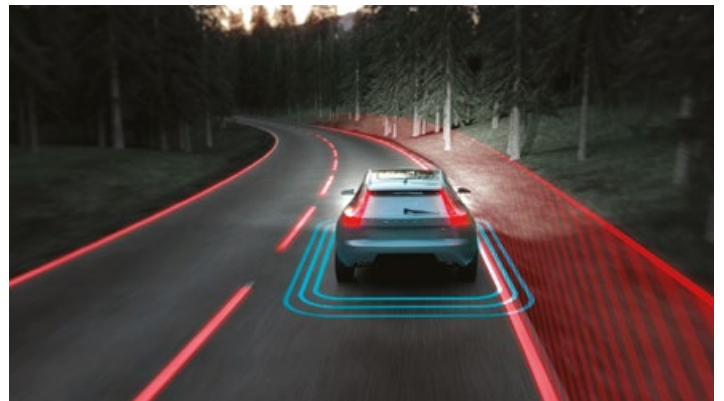

City Safety - Collision Avoidance & Mitigation with Intersection Support Pedestrian, Cyclist & Large Animal Detection

Front & Rear Collision Warning & Mitigation Support

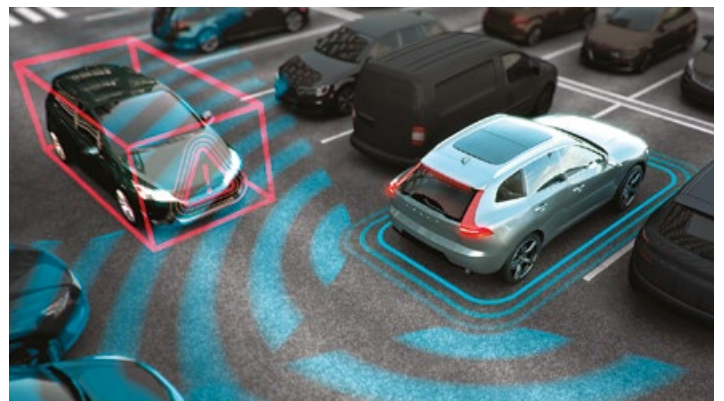

Oncoming Lane Mitigation

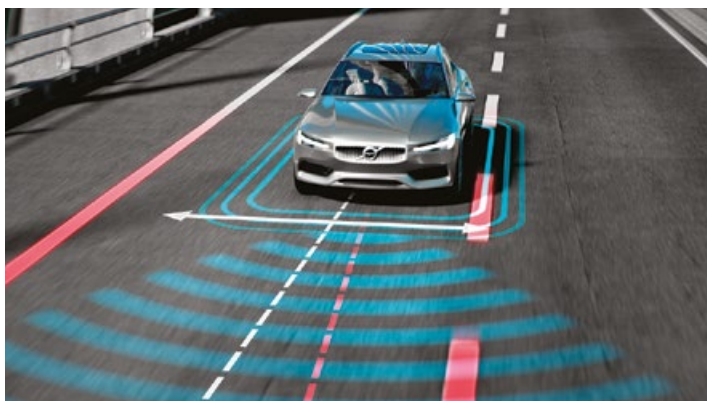

Run-Off Road Mitigation with Road Edge Detection

Blind Spot Information System (BLIS) with Steer Assist

Cross Traffic Alert (CTA) with Autobrake

Lane Keeping Aid (LKA)

Driver Alert Control (DAC)
